The last amount is now four months ago. During this time, a lot has happened, which we want to summarize briefly:

We use it on loan. No nation truck (NNT) for our pilot trip and have two accompanying vehicles.

Together with supporters, we have rebuilt the NNT for ROSA's purposes in recent weeks. Freshly he is now ready to go!

At the same time, we have a wonderful and diverse crew for the first work in Greece, which starts at the beginning of March and will last until June.

We have rented accommodation for crew and back office.

Almost all participants met for an offline preparation weekend and prepared for the time in Greece:

Team building

Self-care & Resilience workshop

Substantive work on div. Topics such as trauma (work)

On 25.02.2022 we are organizing the Open Truck Day at the Hallmarkt (hall/room). We land for truck visit, lecture/rally, information stand, child care/workshop, food & drinks. Come and bring your friends!

Afterwards, the vehicles take the ferry to the Attica Peninsula in Greece.

If you are interested in more detailed reports on what is still pending or what happens next, it is best to contact via Mail for our newsletter on!

Already over 90% of the target amount of our Fundraising campaign have been achieved! Support us in collecting the last percentages!
